Control statements : There are 3 types of control statements in C:

- Decision Making statements
- Iteration statements
- Jump statements

Functions : There are two types of functions in C programming:

- Library Functions: are the functions which are declared in the C header files such as scanf(), printf(), gets(), puts(), ceil(), floor() etc.
- User-defined functions: are the functions which are created by the C programmer, so that he/she can use it many times. It reduces the complexity of a big program and optimizes the code.

Arrays : Types of arrays:

- 1.Single dimensional
- 2.Double dimensional
- 3. Multi-dimensional
